Installation requirments

All rails must be fixed to a suitable wall substrate to allow correct use to be made of the rails. The Splash Lab recommend that installers contact a fixings specialist for advice to ensure the correct fixings are used for the location. Fixings not included with rail.

Compliance & certificates

The TSL.GR45.450 grab rail can be used to form part of a DDA compliant washroom, if installed in accordance with the current guidelines in force.

Spare parts

If a situation arises where you require replacement components outside of a maintenance contract, there may be provision to obtain spare parts. Providing the components are under warranty and the parts have become non-functioning during normal use within their assumed usable life, they may be replaced. Should a replacement mains power supply be required it is imperative that an identical type is used. Contact **The Splash Lab** for further information.
